## DAY OF DISABLED PERSONS

The AQLIS, department of psychology conducted Poster Exhibition on behalf of "International Day for Person with Disability". December 3 is International Day of Persons with Disabilities (IDPD), and on this Day WHO joins other partners around the world to celebrate a day for all. More than 1 billion people experience disability, and this figure is predicted to rise, due in part to population ageing and an increase in the prevalence of noncommunicable diseases. While disability correlates with disadvantage, not all people with disabilities are equally disadvantaged. Much depends on the context in which they live, and whether they have equal access to health, education and employment, among others.

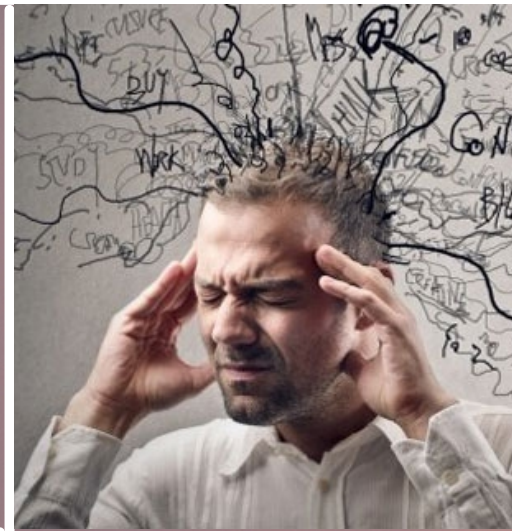

As governments and the international community continue to battle the COVID-19 pandemic, and chart a course forward, it is essential that disability inclusion is central to health system planning, development, and decision making. Strong, effective health systems support robust Department of Psychology.

## *"MANNUM MANUSHYANUM"*

The Two day camping programme was organized at Agali Camp Center Attapadi. The main objective of this programme is to educate students about their immediate environment and impart knowledge about the ecosystems, their inter dependence and their need for survival through visits and demonstrations and to mobilise youngsters by instilling in them the spirit of scientific inquiry into environmental problems and involving them in the efforts of environmental preservation. The day one of camping programme started with an inauguration ceremony. There were 5 sessions in total that day. The first two sessions began with Sarang Chandrashekhar on the topic "Mannum Manushyanum". The third session was an honouring programme. The fourth session was more on the entertaining side which was a drama presented by the tribe. In the evening , the students were set out for trekking. The last session of the day was a cultural program where students put their hearts into dancing and having fun. Nature is at its most beautiful in the morning. The rising sunlight as well as the morning mist provide us immense mist. So to begin the day 2 of camping, students were set out for morning walk. The two day camp winded up with the distribution of certificates. In a nutshell, the students got a unique opportunity to create an understanding of the various elements of environment, the excitement of discovery and hand-on experiences and the joy of an interrelated world.
